certification is shipped into Russia.

ACCREDITED CERTIFICATION is based on safety standards with Russian standards with Russian directives, EMC testing and tests for products in contact with food, this also includes hydraulic components.

Advantages of the GOST-R mark:

- Remember: A product without the GOST-R mark can be specified as a Russian product.
- Products for the Russian Federation.
- Products for which the GOST-R mark is granted: Household appliances, IT equipment, Industrial, Mechanical, Electrical, Consumer products (toys, etc.).

FCC Certification

- FCC stands for Federal Communications Commission. It is an independent Federal Government responsible for the management of the radio spectrum in the US. The FCC protects against "radio and broadcast interference", both by enforcing standards for radio and broadcast equipment and by regulating electronic noise sources.
- Electrical and electronic products may interfere by producing radio spectrum noise.

KOSHER MARK

Kosher is a Jewish product or a very important role in increasing the sales of a food company. Kosher mark, According to the laws of the Jewish religion, "there are some things which are forbidden and others of these conditions" (for example the pig, which has split hooves but does not have the mark, or the camel, which chews the cud, but does not have split hooves), then it is not to be eaten.

HALAL MARK

Halal, from the Arabic word Halal are universal terms that apply to all foods of life. However, we use these terms only in relation to food products, meat products, cosmetics, personal care products, food ingredients, etc. Halal products are those which are not haram. Halal products are those that are considered questionable or suspect and more information is needed to categorize them as Halal or Haram. If a muslim consumes Haram foods and materials, he would be sinful.

BRC MARK

BRC (British Retailers Consortium) Standards is a leading safety and quality certification program, used by over 20,000 certified suppliers in the UK and other countries used with a worldwide network of international Certification Bodies.

The Standards guarantee the standardization of quality, safety and operational control of the particular market place. For Manufacturers, having the BRC certification can be critical to ensuring ongoing commercial success in the market place. BRC certification is also a key factor in winning and maintaining and subject to legal enforcement.

Product Conformity Assessment & Compliance Certifications

Product conformity assessment is a process that confirms a product meets the necessary local, national or international quality standards relevant to the particular market place. For Manufacturers, having the product certification can be critical to ensuring ongoing commercial success in the market place. Product conformity assessment is also a key factor in winning and maintaining and subject to legal enforcement.

CE MARKING

CE Marking is a Self-Certified and through Notified Body. CE marking is a declaration by the manufacturer that the product meets all the requirements of the European Union (EU) and European Union (EU) European Directives. CE marking gives companies easier access into the

European market to sell their products without adaptation or reworking. The initials "CE" do not stand for any specific words but a declaration by the manufacturer that his product meets the requirements of the applicable European Directives.

International Organization for Standardization

ISO (International Organization for Standardization) is the world's largest developer and publisher of International Standards. ISO is a network of the national standards institute of 162 countries, one member per country, with a Central Secretariat in Geneva, Switzerland, that co-ordinates the system. ISO is non-governmental organization that forms a bridge between the public and private sectors. A standard is a document that provides requirements, specifications, guidelines or characteristics that can be used consistently to ensure that materials, products, processes and services are fit for their purpose. There are over 19 500 International Standards issued by ISO or their members.

ABOUT US

RPG Ventures is a sister concern for Accredium Conformity Assessment Services Pvt. Ltd. (ACAS-CERT), New Delhi. RPG Ventures is one of the leading and fast growing certification bodies across the globe with focus on customer satisfaction through value added services. Our aim is to promote, encourage awareness and help Micro, Small and Medium Enterprises to continuously improve quality within industry, commerce and the public domain.

Accredium Certification is licensed by GACB(Europe) and membership of ANSI to ensure the continuance of its integrity and maintain its credibility with its clients.
